Portfolio

Creative Web Developer experienced in building interactive and responsive web applications using HTML, CSS, JavaScript, and Angular. Adept at transforming design concepts into functional interfaces while ensuring smooth user experiences. Enthusiastic about learning new front-end technologies and contributing effectively in team-based projects.

EDUCATION

Bachelor of Technology, Information Technology- K.S.R. College of Engineering (2020–2024), CGPA: 6.9

Higher Secondary (HSC)-Shri Vidhya Bharathi Institutions (2020), Percentage: 63%

PROJECTS

Portfolio Website

- A responsive personal website built to showcase my skills, projects, and experience. Designed with clean UI, reusable components, and mobile-friendly layouts.
- Showcased projects and skills with easy navigation and mobile-friendly design.
  Technologies Used: HTML/CSS, Bootstrap

Shop Sphere (E-Commerce Web)

- An e-commerce prototype featuring product listing, cart functionality, and checkout pages. Built using Angular Router and reusable components for scalable, modular UI development.
- Managed product listings, cart updates, and checkout functionality for a user experience.
  Technologies Used: HTML/CSS, Angular, Bootstrap

Employee Management System (Angular)

- A CRUD-based web application for managing employee details, implemented using Angular Forms, real-time validations, and basic API integration for data handling.
- Built a user-friendly interface for adding, updating, and viewing employee information.
  Technologies Used: HTML/CSS, Bootstrap, Angular

EXPERIENCE

Web Developer (Intern)
Code Rays IT Private Limited

May 2025 — Nov 2025
Chennai

- Maintained and updated the company's e-commerce website, handling CRUD operations, cart and product management, updating static data via admin dashboards, and collaborating with the operations team to understand product workflows, gaining exposure to overall website management and front-end processes.
- Strong focus on delivering high-quality web solutions and collaborating effectively in agile teams.

Web Development (course)
Besant Technologies

Nov 2024 — March 2025
Chennai

- Web Developer with hands-on experience in HTML, CSS, JavaScript, Angular, and Java. Proficient in building responsive and dynamic web applications, implementing interactive front-end features, and integrating with backend systems.
- Strong focus on delivering high-quality web solutions and collaborating effectively in agile teams.

SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, Angular, Bootstrap
Backend	API Integration (Basic)
Database	MySQL (Basic)
Tools	GitHub, VS Code

HIGHLIGHTS

1. Build user-focused applications with HTML, CSS, and JavaScript.
2. Developed multiple Angular projects emphasizing clean UI and modular, reusable components.
3. Ability to quickly learn other front-end frameworks like React and Vue.
4. Focused on creating responsive, high-performance web applications.
